FOUNDER'S MESSAGE

The same care for every client.

Kosan was founded on the principle that every client deserves the same care, whether renting a car, planning a pilgrimage or learning to drive. We have since built eleven companies on that principle, each with its own field, all sharing one name and one standard of work.

Today, from its head office in Erbil, Kosan Holding brings together travel, transport, oil, driving instruction, printing, advertising and humanitarian work. Our companies share a promise as well as a name: to do our work properly, to keep our word and to serve our community in the Kurdistan Region.

Thank you for your trust. We look forward to working with you.
